WHAT IS BUBBLE TEA?

BUBBLE TEA, also known as pearl milk tea, boba juice, boba milk tea or simply boba) is a Taiwanese tea-based drink invented in Taichung, Taiwan in the 1980s.

There are many variations of bubble tea with a wide range of ingredients. Most recipes contain a base of tea which is mixed or shaken with fruit or milk. Ice-blended versions of the tea are usually mixed with fruit or syrup, resulting in a slushy consistency. Chewy tapioca balls - also known as bubbles/pearls/boba - are often added, hence the name: bubble tea.

While there are many other toppings, like Nata jelly, pudding, herbal jelly, the bubbles remain the crowd favorite.

In the early '90s, bubble tea was pervasive in Japan and Hong Kong. From there, international traders pushed the product into Chinatowns all over North America where it flourished. By 2000, a veritable boom was underway with bubble operations opening across the world, Ming's Bubble Tea included!

Bubble tea has evolved since its creation and, though we try to uphold the tradition, we are fearless in the face of change. We are here to innovate and push the boundaries of bubble tea in every cup! Hurry up and find your customized drink here!

This little hole in the wall is an absolute delight for any person, student or otherwise. The staff is always helpful, the owners a pleasure to speak to, and the drinks delicious. The environment is very unique, with a wall full of post it notes of personalized wishes, drawings, and quotes. What more could you ask for? Will continue to return until someone forcibly stops me.

- DAVID R

Great service, great drinks, an almost personalized friendly environment. A great place to have a chat with friends. Even just to enjoy the bubble tea. They also allow patrons to leave sticky notes the wall with little drawings, notes, inspiration or even just because.
